Lt Gen Manoj Pande first engineer to be Army chief

t Gen Manoj Pande will take the reins as the 29th Chief of the Army Staff after incumbent Gen MM Naravane's tenure ends on April 30.

Lt Gen Pande, currently serving as the vice chief, will become the first commander from the Corps of Engineers to take charge of the 1.3-million-strong force as the position has been held so far by officers from infantry, artillery and armoured regiments. Before taking charge as the Vice Chief of the Army Staff on February 1, he was heading the Eastern Army Command tasked with guarding the Line of Actual Control (LAC) in the Sikkim and Arunachal Pradesh sectors.

Officials said the Appointments Committee of the Cabinet, headed by Prime Minister Narendra Modi, approved the appointment of Lt Gen Pande as the next Army chief.

Lt Gen Pande also served as the Commander-in-Chief of the Andaman and Nicobar Command, which is India's only tri-services command.

Update Covid figures daily: Centre to Kerala

Directive comes as state releases tally after 4 days. leading to 90% spike in new cases on Monday

SHINE JACOB Chennai, 18 Apri

The Centre has asked Kerala government to update Covid numbers daily as India reported a 90 per cent increase in new cases with a 165 per cent increase in positivity rate in the last 24 hours.

Kerala stopped giving regular updates on Covid numbers since April 14. This skewed the status of India's key monitoring indicators like cases, deaths, and positivity.

The Union health ministry in a letter to state Principal Secretary Rajan Khobragade said it is important to update Covid data daily for taking proactive steps to tackle new variants.

data will assist in India's fight against the Covid-19 pandemic and will help not only in tracking and monitoring, but will also help in defining the strategies and plans at the Centre, state, and district levels," it said.

"Daily and diligent reporting of data is critical to arrive at a meaningful understanding of the pandemic in district. state, and national level and ensure that any anomalies, surge or emerging trends can be captured in a timely manner. This is especially relevant as it is a highly infectious disease and also has an associated risk of emergence of new variants."

UP reinstates mask mandate in 6 NCR districts, Lucknow

The Uttar Pradesh government on Monday made it compulsory for people to wear a face mask in public places in Lucknow, Gautam Buddh Nagar, Ghaziabad, Hapur, Meerut, Baghpat and Bulandshahr amid a rise in Covid cases. The Harvana government also brought back a mask mandate in Gurugram, Faridabad, Sonipat and Jhajjar.

On Monday, Kerala added 914 new "Quick and continuous update of cases and 213 deaths, as a result of which India's overall cases saw a sudden jump to 2,183 new cases and 214 deaths. This was compared to 1,150 new cases and four deaths on Sunday.

The last time India saw over 2,000 cases was on March 19, when it saw 2,075 new cases. India's active caseload currently stands at 11,542, with a recovery rate of 98.76 per cent. The daily positivity rate was seen at 0.83 per cent and weekly positivity rate at 0.32 per cent. In the last 24 hours, 261,440 tests were conducted in the country.

It was Kerala that reported the first Covid case in India on January 30, 2020.

"The merger was always on the cards. The timing is right. Both companies have performed very well and the group wants to unlock this value, by merging these two companies into a bigger entity," said a source

"This merger also fits in

conglomerate. More importantly, the merged entity does not have any overlaps," said

The merged entity, which will have a market capitalisation of over \$22.05 billion (₹1.68 trillion), will have a combined revenue of \$3.5 billion. This will make it the sixth largest IT services player from India.

For L&T, this merger ties in with the group's vision of becoming more servicesoriented. The merger has business synergies since both companies have complementary portfolios. For instance, communications media and techgoods, manufacturing are bigger focus areas for Mindtree. In the case of LTI, it is bank-

ing and financial services, and insurance that are its largest verticals, with over 32 per cent and over 13 per cent of revenue, respectively, in the third quarter of 2021-22. However, the merger buzz

has not gone down well with the market as share prices of both companies were down. Mindtree stock was down 3.33 per cent to ₹3,960.8 per share; LTI stock at ₹5,866 per share was down 2.66 per cent at the end of trading day.

Analysts believe the merger is ill-timed. "A merger of these two entities is a foregone conclusion. Given the growth momentum these companies are witnessing, a merger at this time may not be sensible as it would defocus the management from capturing growth to managing merger complexities," said Pareekh Jain, founder and chief executive officer, Pareekh Consulting an engineering consultancy services firm.
